AUTEL MAXISYS

ULTRA

The MaxiSys Ultra is Autel's most ambitious diagnostics tablet designed to maximize technician intelligence. It features a 13-inch touchscreen tablet with Android 7.0 OS powered by an Octa-core processor (2.3 GHz Quad + 1.7GHz Quad), substantial 256GB built-in memory, all powering the new split-screen multi-application navigation to provide diagnostic guidance and test components to confirm repairs. Combined with the dynamic topology module mapping, enhanced AutoSCAN features and Intelligent Diagnostics options, the Ultra offers the technicians step-by-step repair guidance. The new MaxiFlash VCMi functions as a 4-channel oscilloscope, waveform generator, multimeter, and CAN BUS tester. The convenient docking station featured ensures you always have the power to scan.

YOU HAVE TECH SUPPORT!

INCLUDED WITH ALL TOOLS PURCHASED THROUGH AE TOOLS & COMPUTERS... FOR THE LIFE OF THE TOOL!

When you have questions or problems, simply create a support ticket online and we will contact you quickly! If needed, we will log in remotely and help you solve the issues you are facing. This support is REAL. Real people helping you when you need it most! There are no limits to the calls and no additional expenses for the help. If there are subscription fees or update costs associated with the tools, we will make you aware of those up front. There are usually annual subscriptions and updates required for most tools. We are tuned into the urgency that is present in every shop, and we understand the challenges you face.
